

STYLE OF DEFENSE

DESCRIPTION

You are considered sensitive to the threat and danger that might come upon you. It might be that sometimes you have a bad dream because of imagining the worst possibility of an event. It might be that sometimes you have problems with your negative thoughts regarding unusual matters around you.

TO DEVELOP

To develop, avoid thinking too much about negative issues around you. Control your imagination so that it is not going wild and brings negative impact to your soul. Face your problems wisely, do not run from it. Develop your thinking skills, communicate, and act positively in your life. Avoid prejudice and proofless assumptions.
